6.005 Team Members: Srinidhi Viswanathan, Clare Liu, Yee Ling Gan

Team Goal: Get an A on the project, but don't work on the extensions (unless we all agree that we have enough time)

Meeting Norms:
- In-class time: Meet in McCormick Green Living room during class time, unless we have questions (then go to class/recitation)
- Meeting times: We plan to meet all together since we all live in the same dorm - one of our members will not be in town for next weekend, and during that time we will have to work remotely/Skype. We anticipate each of our meetings will be 2-4 hours.

Work Norms:
- We will record who is responsible for which tasks on a Google Doc. This Google Doc will also have our to-do list, which will help us keep track of who is responsible for which tasks.
- Work Distribution: We will all be working together to decide the parsing format, abstract syntax tree, etc. - but when it comes to writing tests for the files, we will split the work amongst the three of us.

Decision Making: We will need 100% consensus on all major decisions
